Oracle Database 19c RAC Administration Workshop

This Oracle Database 19c: RAC Administration Workshop course will teach you about Oracle RAC database architecture. Expert Oracle University instructors will deep dive into Global Resources and Cache Fusion.

Objectives

- Install and configure RAC
- Manage RAC Database
- Upgrade and patch RAC Database
- Manage backup and recovery for RAC
- Monitor and tune RAC Database
- Manage high availability of services
- Implement High Availability for connections and applications
- Configure RAC One Node Database
- Implement In-Memory Column Store in RAC
- Configure Multitenant Architecture in RAC
- Manage Quality of Service in RAC

Topics

- Grid Infrastructure: Overview
- RAC Databases Overview and Architecture
- Installing and Configuring Oracle RAC
- Oracle RAC Administration
- Upgrading and Patching Oracle RAC
- Managing Backup and Recovery for RAC
- Global Resource Management Concepts
- RAC Database Monitoring and Tuning
- RAC Database Monitoring and Tuning
- High Availability for Connections and Applications
- Oracle RAC One Node
- Oracle Database In-Memory in RAC
- Multitenant Architecture and RAC
- Quality of Service Management
