
40336-A: First Look Clinic: Windows 10 for IT Professionals

This Microsoft First Look Clinic introduces IT Professionals to the new features and capabilities of Windows 10, using the Enterprise Edition of Windows 10. It also covers the key Windows 10 ecosystems of Identity Management, cloud services like Azure Active Directory (AAD), deployment/management tools, and the new User Interface. No topic is covered in depth, but students will finish the clinic with an understanding of the new features and capabilities of Windows 10 and related services and administration tools.

Audience

This clinic is intended for IT professionals who are interested in learning about the new features and functionality in Windows 10. In general, adopters of new technology or people looking to gain early insight into functionality of Windows 10 and related cloud services and tools will benefit from attending this First Look Clinic. People who are key technical influencers and technology decision-makers in an IT organization also may attend this clinic, as they can benefit from gaining early insight into some of the latest features and technologies that Windows 10 includes.

Topics
