
40585-G: Microsoft Cloud Workshop: AI-Led Business Process Automation

In this workshop, you will learn to automate a business process end-to-end using a variety of Azure Cognitive Services. At the end of this workshop, you will be better able to architect and implement a business process automation solution that leverages Azure Cognitive Services.

Objectives

- Architect a business process automation solution that leverages Azure Cognitive Services
- Implement a business process automation solution that leverages Azure Cognitive Services

Intended Audience

This workshop is intended for Cloud Architects and IT professionals who have architectural expertise of infrastructure and solutions design in cloud technologies and want to learn more about Azure and Azure services as described in the "Summary" and "Skills gained" areas. Those attending this workshop should also be experienced in other non-Microsoft cloud technologies, meet the course prerequisites, and want to cross-train on Azure.

Topics

- Whiteboard Design Sessions – AI-led business process automation
- Hands-on Lab – AI-led business process automation
