55240-A: Writing Reports with Report Designer and SSRS Level 3

In this one-day course, students will continue their learning on report writing with Microsoft SQL Server Report Designer and SSRS. The focus of this course is enhancing custom report visualizations and the use of Visual Basic programming in SSRS reporting. Supporting Visual Basic programming in reports is a normal requirement in today's reporting landscape and this course presents the information you will need through the course content, group discussions, worksheets, practices, demonstrations, and lab activities. Report Designer is available for all supported versions of Microsoft SQL Server.

Prerequisites

Before attending this course, students must have the following knowledge and experience:

- Familiarity with Windows.

- Creating and navigating folders.

- Opening programs.

- Manipulating windows.

- Copying, pasting, and formatting text.

- Saving files.

- Course 55170: Writing Reports with Report Designer and SSRS Level 2

Audience

The primary audience for this course is persons experienced with Report Designer and SSRS. The secondary audience for this course is experienced Report Builder (SSRS) report authors. Course participants may be business analysts, programmer analysts, data analysts, database administrators, or IT professionals.
