
İleri Seviye (Advanced) Flutter Eğitimi

Eğitim Hakkında

Flutter, Google tarafından oluşturulan ve Android, iOS, web ve masaüstü işletim sistemleri için platformlar arası uygulamalar oluşturmanıza olanak tanıyan açık kaynaklı bir UI çerçevesidir.

Neler Öğreneceksiniz

- Migrate applications from Java to Flutter.
- Integrate Firebase backend services such as database, authentication, and storage.
- Create animations and advanced UI features for an app.

Eğitim İçeriği

Introduction

Introducing the advanced features of Flutter

Migrating Apps to Flutter
