
Oracle Database 19c New Features for Administrators Ed 1

The course provides the Oracle Database 19c new features and enhancements related to database overall, security, availability, performance, data warehousing, and diagnosability.

Objectives

- Understand the concept, benefits, configuration, and usage of the new features and enhancements in database overall area
- Understand the concept, benefits, configuration, and usage of the new features and enhancements in the security area
- Understand the concept, benefits, configuration, and usage of the new features and enhancements in the availability area
- Understand the concept, benefits, configuration, and usage of the new features and enhancements in the performance area
- Understand the concept, benefits, configuration, and usage of the new features and enhancements in big data and data warehousing area
- Understand the concept, benefits, configuration, and usage of the new features and enhancements in diagnosability area
- Understand the concept, benefits, configuration, and usage of the new features and enhancements in sharding area

Topics

- Using General Database Overall Enhancements
- Using Security Enhancements
- Using Availability Enhancements
- Using Performance Enhancements
- Using Big Data and Data Warehousing Enhancements
- Using Diagnosability Enhancements
- Sharding Enhancements
