# Oracle Unified Directory 12c Administration Ed 1

---

This Oracle Unified Directory 12c: Administration Ed 1 training teaches you about the features, architecture, installation and configuration of Oracle Unified Directory 12c for storage, proxy, and replication. Learn to configure OUD security and synchronize OUD with other third party directories by using DIP and integrate EUS with AD.

## Objectives

- Install OUD and OUDSM
- Integrate EUS, OUD, and AD
- Manage administrative users and password policies
- Manage entries and schema of OUD
- Integrate EUS, OUD, and AD
- Synchronize OUD and OID by using DIP
- Perform monitoring and logging tasks
- Configure OUD for storage, proxy and replication
- Configure OUD security
- Deploy custom plug-ins
- Explain the features and architecture of OUD

## Topics

- Overview
- Introduction to OUD
- Installing and Configuring OUD
- OUD: Basic Administration
- Monitoring and Logging
- OUD: Security
- Deploying OUD in a Replication Topology
- Deploying a Replication Topology with ODSEE 11g and OUD 12c
- Oracle Directory Integration Platform: Synchronization Concepts
- Synchronizing OUD with Other Directories
- Deploying OUD in a Load-Balanced or Distribution Topology
- Virtualizing OUD
- Integrating with Enterprise User Security
- Extensibility Framework
