
Siebel Open UI Foundations

This Siebel Open UI Foundations training teaches you how to use the new browser-independent framework to customize Siebel client-side application logic and rendering using standard web development such as cascading style sheets (CSS), JavaScript, and HTML.

Objectives

- Describe the Siebel Open UI architecture
- Identify the key file types involved in customizing the Siebel Open UI client
- Administer Siebel Open UI customizations
- Make simple customizations in themes and cascading style sheets
- Make simple customizations in Open UI desktop applications

Topics

- Siebel Open UI Client
- Manifest Administration
- Siebel Open UI JavaScript API
- Files and directories
- Debugging
- Styling
- Mobile
